

Science Writin サイエンス・ライティング(基礎) 日時:2018年10月2日~11月13日 毎週火曜日7~8限(15:00~16:30)

This course focuses on writing science stories in English. As part of developing "Ocha science blog", students will write and publish science stories. They may cover a scientific breakthrough, explain natural phenomena scientifically or others. Their stories, however, must communicate science to a general reader in a clear and compelling prose.

- 1. Studying the fundamentals of writing clearly and efficiently
- 2. Warming up exercise: Writing a standout abstract
- 3. Finding a science story idea and searching the sources
- 4. Structuring your story
- 5. Writing down
- 6 & 7. Revising your story and publishing
